

Today

Again Around the Earth
Big Nations Needed
Japan Keeps Ready

By Arthur Brisbane
Copyright 1922, Star Co.
Almost exactly four hundred years ago, Magellan's ship Victoria entered her harbor in Portugal, the first vessel that ever went around the world. Magellan didn't finish the trip, having been killed in a foolish local war in the Philippines.

The Victoria spent something more than two years on the journey. Today two Englishmen will try to repeat the trip in a flying machine. It will be comparatively slow, but it will be the beginning of real circumnavigation of our planet.

In the old English ballad, "King John," Lackland asks the poor squire, disguised as the Abbot of Canterbury, to answer questions on pain of property confiscation. One question: "How long would it take me to go around the world?" The imitation abbot replied: "You must rise with the sun and ride with the same." Then the answer to you will go around the world in twenty-four hours.

That will be done, by men in flying machines, before this earth is much older. It would surprise King John; so would the steam engine.

It pays to have a big nation on this continent, as it pays to have a big policeman on the street corner.

Nicaraguans started a revolution which was not necessary. A good deal of harm might have been done, but United States marines announced that they would take a hand in it. The revolution stopped. It was like the big policeman walking up to a small gambling game and saying, "Go home!"

The League of Nations idea, establishing as many little WOLFS as possible. The world needs big nations—powerful, responsible. Eventually, of course, the earth will be all one nation—say in half a million (or possibly, even in fifty thousand) years.

Japan is examining about 530,000 young men for service in the army. They have conscription there every year, in peace or war. Each year they pick out 130,000 of the best young men.

These must serve two years in the regular Japanese army, and a little over fifteen years with the reserves. Japan bows and smiles and KEEPS READY. Very wise little country.

Three hundred Sinn Feners were rounded up and imprisoned yesterday. The fighting work goes on, although the English are out of it. The first problem was to get the English out of Ireland. The present problem is to get civil war out of Ireland, and that is the harder problem.

There are some hatreds more intense and bitter than bitterness between different nationalities. Religious hatred is one.

In obedience to orders of the Allies, Germany has sent more than five million rifles, one hundred thousand machine guns, thirty-five million shells and mines, thirteen thousand airplanes, thirty-four thousand airplanes engines.

The machinery thus destroyed, stored, or shipped and airplane engines, may be bitterly regretted one of these days, if Allied by Russia, should come, it is said, to liberate the air.

If the Germans could not be trusted with those things, why didn't the Allies take them and store them away?

Three and a half per cent. Liberty bonds sold above par yesterday. The big United States Steel stock also went above par, with a margin of two points. Avoid gambling. It's a worse vice than drink. If you must buy something, buy bonds. If you must trade with steel stocks, take the big company.

Be cautious about combinations. Two lame horses hitched together do not make a very magnificent team.

Some one suggests vacuum cleaners for streets, instead of brooms, shovels, open cars and scattered dust and germs. Eventually cities will be cleaned as houses are cleaned. Women in city government will hurry it up. The streets will be clean, the vacuum cleaner, as modern brooms are piped. The dust and rubbish will be drawn out of sight and out of the air, into furcues. Cities will be beautiful. Later cities will vanish. Men are not always going to live in cities, rubbing each other's shoulders like monkeys in a monkey house.

THE WEATHER

Boston and vicinity: Partly, with much change in temperature tonight and Thursday. Moderate winds. High 60; low 45. Rain about 8:30 a.m. and 8:45 p.m. High tide at 11:11 a.m.; low tide at 1:11 p.m. Temperature: Baltimore, 65 at 10 a.m.; New York, 64 at 10 a.m.; New Orleans, 74 at 10 a.m.; San Francisco, 64 at 10 a.m.; Seattle, 64 at 10 a.m. Light air, variable at 8:30 a.m.

41,000 Sign Petition For 5-Cent Cartfare

PUBLICS EAGER TO FORCE ACTION ALL FREIGHT RATES CUT

Court Room Scene at "Poison" Trial
Revere Grocer, Charged With Murder, as He Appears in Prisoner's Cage

Never in the history of Boston civic affairs has there been a more eager rush of persons to help in gaining an object. Boston people want a freight fare.

They want it now.

Tomorrow afternoon at 2:30 o'clock in room 519, State House, there will be a public hearing on five-cent fare.

The hearing will be held by the House Rules Committee. It is the Mayor's bill to restore the fare by altering present public control and by placing the deficit in question.

The subject of the hearing will be whether the Mayor's bill should be admitted to the Legislature for discussion and final action.

You may disagree with the Mayor's bill, but at least you will agree with the American's demand that the Legislature give the stranger some sort of relief.

SIGN AND BE THERE.

If you are not familiar with legislative matters it will be well to remember that the time for filing bills has expired. A bill can be admitted now only by suspension of the rules. If you sign the petition and turn it in for action at this time, the bill will be admitted.

WILL HAVE NO EXCUSES FOR NOT KNOWING THAT YOU

J. THOMAS GETTIGAN, WIFE AND COUNSEL.

At the left is Attorney Revere, who is defending Gettigan. Mrs. Myrtle Gettigan, in center of group, follows each phase of the testimony closely and sits within a few feet of her accused husband, conferring with him during recesses. Gettigan stood in the prisoner's cage for this photograph. The man behind the cage is a court attendant.

GETTIGAN 'TOLD UNDERTAKER TO BE READY'

J. Thomas Gettigan asked relatives of the aunt he is accused of poisoning "what undertaker they would prefer" the day before she died, and ordered the undertaker, according to testimony in Suffolk Superior Criminal Court today.

Gettigan is on trial, charged with the murder of Mrs. Elizabeth M. Cook, his aunt, and a conspiracy to slay his uncle, Clinton W. Richardson, both of Revere.

That was in 1921, and his motive is alleged to have been a desire to get possession of Richardson's \$250,000 estate and rid himself of rival claimants.

Mr. Charles P. Richardson, sister

Boston American's Petition for a 5-CENT FARE

It's YOUR fight. Get your friends to sign. Call on the neighbors. DO IT NOW!

To Governor Cox, President Allen, Speaker Young, and the members of the Great and General Court:

We, the undersigned citizens and residents of the Metropolitan district, served by the so-called Boston Elevated Street Railway, believe that the time has come when our street railway system can carry our people for a five-cent cartfare, and still preserve the principle that passengers should pay the cost of their service. If the Legislature will enable this reduction to be made.

Therefore, we respectfully petition the Governor and the members of the Great and General Court to give our Public Trustees now publicly operating our street railway system such enabling laws as will permit them to give us the desired reduction in cartfare. And we request that this legislative action be taken this year.

12 HURT WHEN TROLLEY HITS SAND TRUCK

A dozen persons were injured, four severely, when a Boston & Worcester trolley car speeding toward Boston hit a sand truck with a terrible crash in the Chestnut Hill section of Newton today.

The car was derailed, but not until it had carried the truck containing five tons of sand more than thirty feet.

When the truck toppled over, among the injured are:

- Mrs. John W. Wells, taken to Peter Bent Brigham Hospital suffering from possible internal injuries and cuts from glass.
- Mrs. Palmer of Framingham, taken home, extent of injuries unknown.
- Mrs. Victoria Douglas of No. 123 Cabot Park Wellesley Hills, taken to Newton Hospital suffering from cuts and shock, and the trolleyman of the car, Oscar W. Moore of Framingham, taken home suffering from possible internal injuries.

William Quinlan of West Park, Jamaica Plain, driver of the sand truck, had a miraculous escape. He was unhurt, the car smashing into the truck just behind his seat and tossing him to the ground without injury.

A panic followed the crash. Twenty passengers on the car were thrown into a heap. Every car window was broken and a shower of glass brought minor injuries to a dozen of the passengers. Drivers of automobiles hurried to the scene and remained their journey to Boston on a utility car.

Rescued by WOL HENRIS, Chief in charge of Boston Police, and assisted by Boston-Carl Hutter and his wife, the car was being towed away for repairs up in the Maine White House. They will remain for a few weeks of their term, and for the time being, the car will be in the possession of the Boston Police.

SHATTERED WARD'S STORY

Officials May Be Involved in Scandal Following Slaying of Haverhill Boy

New Rochelle, N. Y., May 24.—The State police today took charge of the investigation of the great blackmail mystery which centers about the murder of Clarence Peters, Haverhill, Mass., boy, by Police Commissioner Walter S. Ward, son of the bread king.

They declared that Ward's story of the killing, in which he said that Peters was a member of a blackmail ring, has been shattered by newly discovered facts.

Meanwhile the blackmail mystery has become the scandal of Westernchester County.

It may involve a number of officials who have been adding the dash of young slayers to conceal the facts before and after the act.

New evidence indicates that Ward had been gambling heavily and losing both at the card table and in the poolroom. His father had refused to give him any more money for gambling.

Pressed for funds he told his father that he was involved in a scandal that would involve the name of the Ward family which the father had worked so hard to build up.

Eventually he received a cable from his father stating he would give "no more money for blackmailing," and that the father was returning on the first boat from Europe to investigate.

Following this Ward took poison.

It was reported to be an accident. He recovered, it was then that he left the body of the Massachusetts sailor in the bushes, shot through the heart, and went to his home to sleep.

For five days he kept the killing hidden.

N.E. ROADS GET 14 P.C. SLASH

International News Service Washington, May 24.—It was unofficially estimated this afternoon that the reduction ordered by the Interstate Commerce Commission would reduce the annual revenues of the railroads by approximately \$200,000,000.

By Associated Press Washington, May 24.—Reduction in freight rates averaging about 10 per cent. were ordered today by the Interstate Commerce Commission in a decision resulting from its inquiry into the general rate structure of the nation.

In the cut in freight rates was fixed by the commission at 14 per cent. in Eastern territory; 15 per cent. in Western territory; and 15 per cent. in the Southern and mountain Pacific territories.

All reductions ordered are effective July 1 and constitute a drastic cut than was generally expected.

In Western territory the commission ordered a cut of approximately 15 1/2 per cent., and in the Southern and mountain Pacific groups approximately 15 1/2 per cent., all effective July 1.

The commission's rate cut was made horizontally and removes a percentage of the general increase given to all railroad rates in 1921. The commission in its decision favored a general reduction in rates levels "as substantial as the commission could make."

COAL OPERATORS SEEK PARLEY WITH MINERS

New York, May 24 (By International News Service).—If the anthracite miners' representatives will name a date the operators are willing to meet with them to resume negotiations looking to ending the strike, it was asserted here today by a spokesman for the operators. The operators on May 18 refused the nineteen demands of the miners. The operators, however, are still hopeful the miners will make some agreeable proposition.

MRS. DE VALERA IS MOTHER OF TWINS

Dublin, May 24 (By the Associated Press).—Mrs. Eamon de Valera gave birth to twin boys, Charles Burgess, wife of the former minister of defense in Mr. de Valera's Cabinet and a prominent opponent of the Anglo-Irish treaty, and a daughter.

HOTTEST MAY DAY IN PARIS FOR 116 YEARS

Paris, May 24 (By the Associated Press).—Paris today experienced the hottest May day in 116 years, the thermometer hitting 84-1-0 degrees Fahrenheit in the shade. A hot wave began sweeping Western Europe five days ago. Cakes and beer gardens did good business.

HOTEL MEN FIGHT STATLER

A legal fight against the plans of the Statler Hotel Company of a 1,200-room hotel at St. James avenue, Arlington street and Columbus avenue, Boston, may be started at once by other interests which claim an option on the site of the proposed hotel.

Charles B. Averil, manager of the Statler Hotel of Worcester and one of the men interested in the proposed hotel, today experienced the hottest May day in 116 years, the thermometer hitting 84-1-0 degrees Fahrenheit in the shade. A hot wave began sweeping Western Europe five days ago. Cakes and beer gardens did good business.

'Ford-for-President' Club Launched in Dearborn

By Associated Press.

Detroit, May 24.—Henry Ford's townspeople have launched a movement they hope will land the manufacturer in the White House.

At a meeting in the Town Hall at Dearborn, Ford's suburban home, 137 of his neighbors formed the Ford-for-President Club, with the declared intention of extending its activities to a nation-wide scope.

The platform upon which Mr. Ford would be asked to run on was touched upon only lightly by the speakers, but many of Mr. Ford's ideas have previously been endorsed by his Dearborn friends.

"We want Henry," was the inscription on banners on the card-board hats worn at the meeting, which took on much of the appearance of an old-time political rally.

WEYMOUTH IN BIG MARBLE TOURNAY

The West End isn't the only section which has developed "marble champions." Letters are flocking in to the MARBLE Editor from all sections of the State asking to be enrolled in the championship tourney which they want staged on Boston Common.

"Jack" Dwyer, who says he is the best marble player in Weymouth, isn't afraid to take all the Boston "kids" on at one time. At least that's what he says in the following letter.

Marble Editor—Please enroll me in your marble contest. Those "kids" from the West End aren't in it with our "bogie" players down here. Let them all get together and I'll take 'em on, all at the same time.

"Jack" Dwyer,
East Weymouth.

Paul Dailley of Dorchester follows up his statement of yesterday with a letter to show that he shares in his demands for an inter-city tournament. He says:

Marble Editor—It's easy for all these "kids" to talk about being the best players in Boston, but let them try to beat every other boy in the city before they get a chance to prove it. Please Mr. Dailley of Baltimore. And be sure and stage that contest on Boston Common.

Paul Dailley,
Dorchester.

Get together, you New England marble "champs" and show those Baltimore people that they haven't got the best players in the country. A big free-for-all contest will soon be staged on Boston Common.

Send in your entry to the MARBLE EDITOR, Boston American—N.Y.

Every boy in New England is eligible.

TWO POLICE CHIEFS ON DUTY AT LOWELL

Lowell, May 24.—Lowell had two police chiefs today and probably will have until the City Council meets tomorrow night, when it is expected the appointment of Mayor George D. Brown will be ordered out of office. Mayor Brown removed Chief Edmund Welch several months ago and appointed Winthrop C. MacBryne. The council, after advice from the Superior Court, voided the Mayor's action and reinstated Welch. The Mayor again suspended Welch. The chief ignored the order and today reported at police headquarters. As only routine matters occupied the attention of police there was no clash between the two chiefs.

HARDING MEDAL GOES TO BRITISH HERO

In recognition of his heroism in aid to the rescue of the captain and crew of the American battleship *Carson*, sinking in the Mediterranean on January 21, 1921, Arthur Frederick Watkins, boardman of the United Fruit Line, has been presented with the presidential gold medal recommended by President Harding. The presentation was made by Thomas Porter, British consul-general at Boston, at the British consulate. Watkins, an Englishman, was first to offer his services to man a lifeboat to go to the assistance of the *Carson*.

BETTY ALDEN'S COMMENT ON BOSTON SOCIETY Miss Aldrich Picks Bridesmaids From Out-of-Town

By BETTY ALDEN.

SO many Boston brides have attendants from other cities and vicinities, that in these days of weddings and yet more weddings, there is considerable travelling to and from which makes it also, not only for the railroad companies, but also adds to the gayeties attendant upon the ceremony.

Miss Anna Hamlin, it will be remembered, came up from Washington last month to serve as bridesmaid at the wedding of Miss Rosanna Pike and Lloyd Sanderson, Jr., who have now sailed abroad. Miss Hamlin, who was introduced to society here in Boston about three years ago, is as well known in the Hub as she is at the capital, where her parents, the Charles Sumner Hamlins, have been making their home during the past winter.

She has taken a prominent part in the social activities there this season, and was of the enthusiastic younger coterie attending the Washington Horse Show last week. A member of the Sewing Circle, as well as of the Vincent and Chilton Clubs, she is in close touch with Boston's social life and is always assured of a hearty welcome when she arrives for the Summer months at Mattapan, where the Hamlins have a Summer home.

I note that Lillian Aldrich has selected a number of her attendants from out-of-town for her wedding on June 3 at Trinity Church, to John Gordon Winchester.

The matron of honor will be Mrs. Robert P. Patterson (Margaret Winchester), the bride's prospective sister-in-law. The Misses Elizabeth Lee Dodge and Sarah Sage of New York, Miss Mary Elwyn of Hartford and Miss Caroline Parker of Albany comprise the out-of-town members of the bridesmaid group.

Then Frances Fairchild is coming over from Gotham to attend Miss Elizabeth Zerrahn as maid of honor at the latter's marriage to Theodore Chadwick Janice Liggitt, has also selected as a number of her attendants girls hailing from other cities, and a goodly portion of the young men who have been invited to serve as ushers at all the June weddings are residents of New York, Philadelphia and other cities.

THE ALEXANDER HAMILTON RICES, who have quite a Boston following, are very shortly to open "Mirtina," their Newport show-place, for the season. They are at present in New York at Carlton House, following their return last week from a trip to Europe.

I understand the Rices have acquired a most unusual pet for their Rhode Island estate, said pet being nothing more or less than a Brazilian jungle eagle. Mr. Rices, who is the only sportsman in this country, is not large, but of quite abnormal strength, and is said to live by stealing monkeys and small pigs, taking them into the jungle. Now we ask—will the well-known explorer provide imported pigs and monkeys to satisfy the rather extraordinary palate of his pet, or will the latter be content with the especially prepared morsels which will doubtlessly be fed to him?

Appropos of Newport-Sporting people of particular interest in the fashionable contingent which visits the famous water-front at least for a portion of the Summer, have been arranged mainly for the month of August.

On the first of that month the New York Yacht Club will make its rendezvous there for the first time, with the races for the Astor cups to be held off Rye Beach on August 5. Others for forty-forters, yet to be arranged, will be held later in the month.

August 14 will mark the start of the annual invitation tennis tournament, in which the country's best players will be entrants. On August 17 the women's invitation matches will be played at the Casino, with the mixed doubles and young people's tournaments to come later.

August 23, 24 and 25 are the dates for the Newport Horse Show, always an equine classic, and bound to draw members of the sporting class from far and wide. With golf matches and swimming races at the various clubs there during the season, there will be plenty of things to keep even the most enthusiastic sports people busy.

MISS ANNA HAMLIN
Miss Anna Hamlin of Boston and Washington, recently came up to Boston for the Pike-Sanderson wedding. Miss Hamlin, a member of the Vincent and Chilton Clubs here, is the daughter of the Charles Sumner Hamlins.

Random Notes of Society
Folk in Town
Country

MRS. JOHN L. THORNDIKE and her daughter, Miss Alice Thorndike, of Marlboro street, are being missed along the North Shore this season, where they are generally of the early arrivals. They plan to return late in the Summer, when they will go to their home at Beverly Farms.

Miss Alice M. Longfellow of Cambridge, daughter of the poet, is stopping at the Red Lion Inn, Stockbridge, during a tour of the Berkshires.

Mrs. Albert Gleaves, wife of Rear Admiral Gleaves, who has been making her home in Boston for the past season, was recently entertained at tea by Mrs. W. Woodward Phelps at Newport, R. I. The latter was assisted in receiving by Mesdames Frank T. Evans, Dr. Witz Blumer and Van Metre.

Mr. and Mrs. Lester Leland of Beacon street have arrived for the season at "Old Tree House," their Summer estate at West Manchester.

Mr. and Mrs. James Lowell Putnam, formerly of Boston and now of New York, are booked to sail on the steamer *France*, May 31. They will remain abroad until fall.

Dr. and Mrs. Samuel Jason Miller of Boston are enroute for the season at their Summer estate known as "Brode" at Gallopou Point, Swampscott.

Samuel Peabody, Harvard, '18, went over to New York to serve in the group of cubers at the wedding of Miss Hope Lincoln, daughter of Mr. and Mrs. Frederic W. Lincoln and Reginald E. Coombs. The ceremony, one of the most fashionable of the month, took place on Monday afternoon in the Old First Presbyterian Church, New York City, Rev. Endicott Peabody of Groton School as assisting clergyman.

VOLUNTARY ARBITERS
HEAR THEIR FIRST CASE
New York, May 24.—The Arbitration Society of America, formed here recently to act as tribunal to decide all controversies, except criminal and divorce cases, brought before it and thus help expedite court actions, began to function today. The first case brought before the society involved a \$400 financial dispute grown out of a partnership dealing in sheet metal.

BILLION READY FOR GERMANY, SAYS MORGAN

London, May 24.—The Standard says J. P. Morgan while in London told British bankers American bankers are ready to loan \$1,000,000,000 to Germany.

Paris, May 24 (By the Associated Press).—Leading bankers from many nations, including J. P. Morgan met here today to discuss financial means for the settlement of the European economic situation. A huge loan to Germany was considered as one of the first measures necessary.

Mr. Morgan was given the seat of honor at the right of Chairman D. L. Davis. Mr. D. L. Davis requested that Gustave Bergmann, the German representative, outline the view of his government as to what could be accomplished should a loan be granted. The figures mentioned ranged from \$500,000,000 to \$2,000,000,000.

King Puts Off Wedding
Paris, May 24.—Because of the illness of Princess Elizabeth of Greece, the wedding of King Alexander of Yugoslavia has been postponed fifteen days.

General Wood Safe After Typhoon
By Associated Press
Manila, May 24.—Major-General Leonard Wood, Governor-General of the Philippines, is safe after being missing thirty-six hours in the past. A typhoon, according to word received here early today, had taken refuge on an island near Manila.

Since the typhoon, keen anxiety has been felt for the safety of General Wood and his family. The Apo is a small island and vessel generally in the vicinity of the island of Mindoro were driven heavily before the storm. For two days the yacht was reported to have been unavailing.

"HUMAN LOCOMOTIVE"
OFF TO WASHINGTON
New York, May 24.—Sam Johnson, the "human locomotive," who recently ran to Boston in forty-five hours, left today with a letter from Mayor Hylan to President Harding. He expects to reach Washington Friday noon.

W A A J. BOSTON.
Favorite strains from *Il Trovatore*, arranged and played by Ferdinand Steindel.

Meditation from "Thais" by Massenet, played by Oscar Haase.

Not Now But Later, from *High Jinks*, by Rudolph Priml, played by Lee S. Roberts.

SAMMY AND HIS PALS

Copyright, 1921, Hear Company

That beautiful Summer resort, Hardluck Beach, was basking in the brilliant sunlight. The sparkling wavelets ran gaily up the shelving shore, while the ocean breeze—well, and how, our old friend, Sam, and his little chum, Goggles, were about to take a swim when along came John the Jollier and the other members of the Hand-Out Club. "Sam," he said, in a tone of anxious entreaty, "we're going to 'ave a meeting at the 'Ague to huplift Russin, but we ain't got huplifting to eat with us and his six 'undred miles from 'ere! Gawa! you hinvite us to a light lunch?" Without a moment's hesitation our two friends took a short run up the springboard and dived swiftly into the translucent depths of the oceans. There was absolutely nothing doing.

(To Be Continued.)

Two hurt in auto crash in Beverly. Two persons, a man and a woman, were seriously injured today when William A. Cross, shoe salesman of Beverly, lost control of his automobile on Cabot street, the main street of Beverly, and dashed

up on the sidewalk in front of the Endicott building. The injured woman is Mrs. Partrunkle Welsh, forty-one years old, of No. 8 Water street Beverly, who sustained internal injuries.

The man is George A. Heron, janitor of the Endicott building.

What would be the distance of hearing, on a set with the enclosed hook-up? How much would a 100-mile vacuum tube set cost? Is enclosed the right hook-up for "that" double hearing coil set? Please send me hook-up for a vacuum tube set.

Answer 1. I should say about ten miles under average conditions. 2. A vacuum tube set with which you could hear signals 100 miles distant would cost about \$50. 3. We do not know what you mean by "that" double-coil set. 4. There are many hook-ups for an audion set, but a very simple one is shown elsewhere. The variometer may be omitted.

E. V. East Boston, Mass. Question 1. What station did I hear at 5:20 p. m. May 23, 1922? You probably heard the Eastern Radio Institute, WAAJ, as they were broadcasting at that hour.

H. L. Somerville, Mass. Question. Can you pick up WJL but cannot pick up WAAJ. What can be the trouble? Probably unskillful handling of your set, as WAAJ is using considerably less power than WJL and also tunes much sharper. Advise using a new piece of crystal.

HOUSE REJECTS ATTEMPT TO SHIFT PRISON

An attempt to abolish the Charles-town State Prison and to establish a new prison at the Bridgewater State Farm as a part of the scheme for State control of the county penal institutions was today rejected by the House.

By nearly unanimous vote, the House rejected the report of a committee that had been appointed to adjust the differences between the Senate and House and to save from final defeat Governor Cox's inaugural demand for State control.

The conference report contained a recommendation for the construction of a prison wall to surround the State Farm. House members arose in protest, asserting that the plan would get rid of the prison at Charlestown.

Speaker Young left the rostrum and took the floor. He appealed to the House to stay in session until it worked out some unification of state control that would heal the wounds of bitterness. He said the movement had aroused the county rings against Governor Cox and that they would remain bitter until all differences are composed.

At his request the House agreed to appoint another conference committee to save the muddled situation.

WOMEN ARE AROUSED BY RHODE ISLAND'S CHILD LABOR SCANDAL

Toiling--That she may wear these

"FOR THINE IS THE KINGDOM OF HEAVEN!" Put your child in the place of Marie Spinaro of No. 241 Bradford street, (shown at left) and Frank Bellano, No. 47 Spruce street, Providence, two of Rhode Island's so-called industrial slaves. They reap a few pennies, weak eyes, ill health and undeveloped brains.

KEEPING IN STEP WITH THE LATEST STEPS! Mrs. Marion Auley of No. 788 Huntington avenue, Brookline, who will interpret a sensational Spanish dance at the dance recital to be given in Seize Hall on Friday evening.

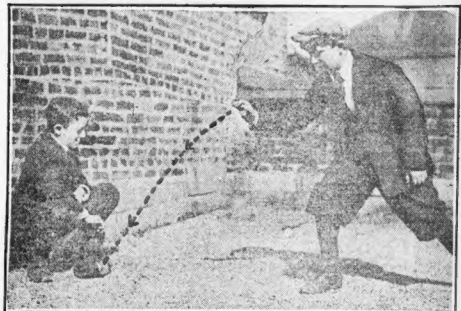

TWO HARVARD SENIORS PICNIC-BOUND! THEY PUT ON THEIR OLD Class for These Festive Affairs and Seek All the Grotesque Effects Possible. Senior on the left has his best of cold tea in his hip pocket. Senior on the right is sampling his. The whole class is having a good time today. The picnic is one of the bright spots of the final year in college for each class. There are all sorts of games and plenty to eat.

BANDITS AFTER THIS \$80,000,000 WOULD HAVE BEEN Given a Merry Little Reception! Not in years has such a large amount been moved at one time through Boston streets. Nearly 100 police escorted the bonds, stocks and securities of the John Hancock Insurance Company from the old office at No. 200 Devonshire street to the new building in Park square.

YOU CAN BE A LITTLE SPORT BY Wearing This! An attractive sport dress with cape of navy crepe de chine. The blouse is made distinctive by the cross bar of ribbon. An ideal outdoor garment. (Underwood)

SHOOT 'EM, NOW, Boys! Frank Kligman (standing) and David Kats giving a few tips on how to bring the marble championship to Boston. They have entered the big contest. Send in your entry. Boston Common's the place. See news page for story.

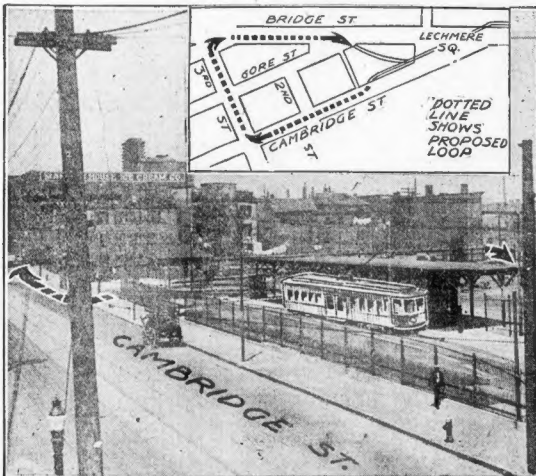

RIGHT ON THE JOB! Charles J. Fox, as he looked on taking office as the new budget commissioner of Boston. He was appointed by Mayor Curley and he will collect just \$5,000 in salary every year. He succeeds Rupert S. Carven, now city auditor. He is the second man to hold this office in Boston.

A PAIR O' KNICKER CHICKENS. And Glad of it! Miss Beraden Morgan, for this cute pose, is awarded today's \$5 award as the Knicker Girl. She lives at No. 88 B street, Lowell. Time's getting short. Address Pictorial Editor.

GEW GAWS AT WHAT A Price! Curving sinuously over the full figure of Kyra, the famed international dancer, is perhaps (who knows) the tinsel product of tiny Rhode Island hands. Children, it is disclosed, make much of the tawdry jewelry that shimmers its way to fingers and nocks. Their education is neglected. They work at home. It's within the law. Remember the Florida child labor scandal! Children as young as six years work at machine and bench in poorly lighted rooms. Think of that, proud New Englanders!

EAST CAMBRIDGE TO GET MORE "L" TRACKS WHETHER THEY WANT Them or Not! Here's how the new Elevated "loop" will look when completed—affecting Third and Bridge streets and Lechmere square. The City of Cambridge bitterly opposes the plan, but the Supreme Court has ruled that the general public is not to be hampered by local ordinances. The new tracks on the streets mentioned will be laid to facilitate transportation and to aid in developing Lechmere square as a terminal.

ALL SET TO RADIATE WITH THE SMALLEST Radio Set! Are you interested in science? You should be. We print the pretty girl with these smallest radio sets to attract your attention. Each is complete—the ring, the cigarette and the necklace, and all are effective in receiving messages.

ANOTHER CLAIM OF EDISON CO. EXPLODED

The claim made by President Charles L. Edgar and other officials that the Edison Electric Illuminating Company pay the highest rates in the country because the area served by the Edison is so small was today exploded by the Boston American.

The fact of the matter is that other big companies are serving areas from two to eight times as big as the Edison, at nearly 23 per cent less than the rates charged by the Edison to its customers.

These facts were today brought out by Attorney Grenville B. MacFarland of the Boston American at the hearing before the State Department of Public Utilities in the rate case brought by the American and the city of Boston.

Mr. MacFarland showed that the area served by the Edison is 600 square miles and the rate charged to the customers is 10 cents per kilowatt hour.

The territory served by the Southern California Company, Mr. MacFarland declared, is 10,000 square miles and the rate is 7.2 cents.

In Detroit the area is 2,245 square miles and the maximum rate is 9 cents.

The St. Louis company serves 3,000 square miles and the rate is 7 1/2 cents.

In Pittsburgh the area is 1,600 square miles and the rate is 8 cents. The Indiana company serves an area of 3,200 square miles with a rate of 7 1/2 cents.

Fresh From Paris—Latest From Marie Suzanne

PARIS, France.

THE evening version of the Greek or side drapery is expressed in terms of white satin by Molyneux. The jet and silken plaques and the surplus bodice with "v" neck line are the newest things Paris does by night.

At a dinner dance at the Ritz recently a smart Parisienne wore the shoulderlike gown of green satin sketched at the right. Interesting is a panel falling from the shoulders at the back, which is cut in one with the half-over skirt. The narrow shoulder straps are matched by diamond-buckled silver slippers.

LAUGHTERTY TO PRESS PROBE OF CRAFT

By the Associated Press.

Washington, May 24.—Declaring his conviction that the people of the United States "have confidence in the Department of Justice being fair, judicious and effective," Attorney General Daugherty in a formal statement said today that prosecution of war fraud cases would be carried out as expeditiously as possible irrespective of attacks being made on him in connection with the Klorer case.

The Attorney-General, in his first direct reply to the charges made by Senator Cawley, Democrat, Arkansas and others, said: "The vigorous prosecution of war fraud cases will be carried out as expeditiously as possible, irrespective of these and other attacks and attacks which will be expected. I have faith that the people of the country appreciate the situation and have confidence in the Department of Justice being fair, judicious and effective."

THREE STRIKERS FINED;
FINED STONE WORKERS
Lawrence, May 24.—Three textile strikers were fined \$5 each in court today for participation in strike disturbances. The men are Clarence Neill, George Hurd and Helen Simon. Three hundred police and workers were going to work in the Plymouth Mills today.

CARDINAL WILL BLESS WESTON CHURCH SUNDAY
Cardinal O'Connell will bless the new church of St. Julia's parish, Weston, Sunday afternoon. Following the blessing he will administer the sacrament of Confirmation to about fifty children of the parish.

The structure is one of the handsomest in the State and is of the Norman Gothic style of architecture. Rev. William J. Fudy is the pastor of the parish. It was set aside as a new parish from St. Mary's, Waltham, in August, 1915, and its remarkable growth and success since that time has created attention.

BASEBALL CATCHER KILLED IN PRACTICE
Winchester, Ont., May 24.—Clare Dalgleish, twenty-three years old, catcher for the Maple Grove amateur baseball team, was killed at Canby, Ont., when a ball thrown by a pitcher warming up struck him over the heart.

New and Slightly Used PIANOS

CUT PRICE SALE

WHEN you want to buy a piano, no matter what make, come here, where selling pianos is reduced to a science to benefit you. Remember this—if I did not sell pianos much lower than others I would not be, as I am, the largest individual piano retailer in New England. Any piano is just as good if bought here as it would be if bought in the warerooms of its maker. These beautiful instruments, acknowledged to be the world's leading makes, are in this sale at prices that startle the piano world and the piano-buying public, because of the fact that the quotations are so low that they seem ridiculous and almost unbelievable.

In comparison with other prices mine certainly do seem foolishly low, and it would seem to the average person that my prices are TOO low—all out of proportion to the value of the instruments. Be that as it may, I will sell at prices quoted and deliver the goods. Sincerely, J. P. COLLINS.

ARMED GUARDS PATROL

STURGEON PRESERVE

Milton, Vt., May 24.—The raw material for American made eel is not to be obtained from Vermont waters. This year if the State fish and game commission can prevent it, several eel wards are patrolling the Lake Champlain. The eel is a valuable fish in the market. For years law-abiding fishermen, working with diligence at night in order to make some money, have made a practice of taking the huge fish, weighing from 100 to 150 pounds, with gaffs.

MOORE WORLD NEWS AND GOSSIP

By FRIEDA DAVIS.

"THE HEART SPECIALIST"
Featuring Mary Miles Minter
Story by Mary Morrison
Ronald Beckwith.
Mary Miles Minter
Bob Stratton, Alan Felt
Roy Atwell
Edith Dwyer, Noah Berry
Edith Dwyer, Carmen Phillips

IN "The Heart Specialist," at the Modern and Beacon Theatres, Mary Miles Minter has an ideal story for her talents. It is in no way unusual, that of a girl who is mistaken for someone else and finds herself in the midst of a mystery story of the first water, but it has sustained interest and moments of comedy.

Mrs. Minter is seen as the writer of a column of "Heart Throbs" in a large newspaper. For the general atmosphere of a newspaper office has been fairly well transferred to the screen, though every one seems to be in a hurry all the time, which is not the way of reporters—all the time—and she is asked by everyone on the staff "why she writes such bunk." That, too, is true to life!

She has her editor her job against an extra month's pay that she can go forty miles in any direction and find romance and plenty of it. He doesn't believe her and takes her up on it. That's the start.

As I said, the story is not new. There are even any number of elements about it. In fact, it is surprising that such "old" material is so entertaining, but it does. Mrs. Minter handles the role acceptably, since it calls for no great dramatic ability. The rest of the cast, notably Noah Berry, are capital in their respective roles.

"GAY AND DEVILISH"
Story by Charles Leggo.
Scenario by Garret Fort. Directed by William A. Selzer.
Fashion Brownes, Doris May, Peter Armbrage, Cullen Landis, Peter Armbrage (the uncle).

Otis Harlan
Lila Hane, Jacqueline Logan, Tony Dore, Ruth Munn
Ann Beale, Lila Leslie
The Butler, Ashley Cooper

THIS comedy picture on the bill, the Robertson-Cole production featuring Doris May, "Gay and Devilish," is the one called up to fill the title and succeeds fairly well with the limitations of the story.

Fashion Brownes agrees to marry Peter Armbrage, a fat millionaire, to retrieve the family fortune, when she meets Armbrage's nephew, played by the engaging Cullen Landis, she decides that she can never be an aunt to him. She carries out her title in being "gay" as much as possible to get rid of her fat fiancé.

The story has not much in it to recommend it, but such comers work as reducing a 100-pound fat man to a perfect 36 has brought moments as has Lila Leslie as "Mrs. Band McNally," the man with the funny man, posing as a Kuppenheister type of cupid. To top it, Jacqueline Logan, as the "baby vamp," remarks, "Wouldn't he make a marvelous shock!"

Mrs. May grows more strenuous in her film and real to feel rather too much so. "But" Montana is, well, "But" Montana at the most romantic, and Otis Harlan as his nephew are excellent. The picture is entertaining but breaks no records as comedies go.

FILM RIVALRY
THE RUMOR is out that the Fox concern has made all plans to take their old production of "Salome," made with Theda Bara in the principal role some years ago, off the shelf, dust it off and send it to the rounds to profit by the publicity given the Naxos production of the Wild story, to be released soon. However true, Madame Naxos need hardly worry. Miss Bara should offer her little competition.

AMERICAN COGNAC PLAYS SAFE
THE SAME rumor was rife concerning the Jackie production of "Oliver Twist." Several years ago this story was filmed by H. A. Spangh, and the Cognacs have bought all the old prints, to prevent their being released in conjunction with the newest version.

A few years ago Famous Players-Lasky made the same story with Marie Dore, but nothing has been said concerning arrangements for this.

MADGE KENNEDY BACK
MADGE KENNEDY, according to latest reports, in "all set" to return to screen work. She has become the sole star of a new concern, the Kenma Corporation, of which her husband, Harry Kennedy, is president, and will start work on "Dorothy Vernon of Haddon Hall," an old favorite. This story, incidentally, has been made by El Steward and has been the most successful of the most fortunate ones yesterday, when it was shown in the city. It is as much opportunity as any one else has. The Kennedy-Kennedy film is shown every day in the Boston Daily Advertiser—447.

Vaudeville Acts at Keith's as Seen by Harmony

AL F. KEITH'S

Editor, Boston American—Many funny things happen in Movieland. Valentino should not be barred from the screen any more than Mary Pickford, Estelle Taylor, Mary Miles Minter, Bela Lugosi, Mabel Normand, Lowell Sherman and a good many others. They were all mixed up in affairs, some worse than others. I think Valentino is just wonderful.

RHETA OF NEWPORT.
Let Fatty, Peggy, Valentino and all the rest earn an honest living. Why bar them from the films? Why should we judge a brother or sister?

C. T. C.
Manchester, N. H.
I like Valentino. If you bar him and Peggy Joyce from the films as undesirable, bar others. I know some stars just as immoral as they claim Peggy to be.

ELLEN B.
I think Rodolph Valentino far superior to all the movie stars, he is no wonder of his popularity in his pictures. The public should think twice before condemning him.

FOLLY B.
Girls who say they won't go to see Rodolph Valentino's pictures are more know in the bottom of their hearts that they are going for him. If Jean Acker didn't want him and preferred Rudolph did, why all this fuss?

MARY ANN.
I don't think an admiring public wastes to see such a popular screen actor discredited. He should not be barred. I think he is a victim of circumstances.

GREEN MOUNTAIN BRUNETTE.
EDISON AN ELECTRICIAN, BUT "POOR FINANCIER"
Oklahoma City, Okla., May 24.—Thomas A. Edison was characterized as a "good electrician, but very poor financier," in an address by Thomas B. McAdams, president of the American Bankers' Association. Mr. McAdams referred to a statement which he said Mr. Edison had made to the effect that the United States should print vast amounts of paper money. He declared the idea would lead to conditions such as exist in Russia and Germany.

25 EMPLOYEES ROUTED BY BEVERLY BLAZE
Fire starting near the ovens in the Hardman Broom Factory, Clark street and Broadway, Beverly, today drove twenty-five girls and men employees into the street and did more than \$2,500 damage. There was no panic, the employees leaving in good order at first sign of smoke.

AMERICAN SEINERS OFF NOVA SCOTIA
Halifax, N. S., May 24.—Canadian naval vessels report the arrival of American seiners off Nova Scotia.

THE greatest compliment that can be paid your meal is when your guest says:
"That's good coffee!"
Good coffee is the climax of every meal and a cup of it for breakfast puts an emphasis upon the day.

To be sure you always have good coffee, rich in aroma and flavor just insist upon

LaTouraine Coffee
45 cents per pound
Put it on your list today and ask your grocer to grind it fresh for you.

"It's the Bean"—selected, blended and roasted according to the famous LaTouraine Formula.

W. S. QUINBY CO. Chicago

"IT'S THE BEAN"

VALENTINO HAS FAIR WRITERS' SUPPORT

Editor, Boston American—Many funny things happen in Movieland. Valentino should not be barred from the screen any more than Mary Pickford, Estelle Taylor, Mary Miles Minter, Bela Lugosi, Mabel Normand, Lowell Sherman and a good many others. They were all mixed up in affairs, some worse than others. I think Valentino is just wonderful.

DAUGHTER INSISTS ON FATHER'S DEATH DECREE

Lafayette, Ind., May 24.—Request of his seventeen-year-old daughter that his death sentence be executed to stand will be granted by Governor McCray, and William L. Donovan, convicted with killer, will be electrocuted June 4. In a letter to the Board of Pardons and Pardon, Mabel Donovan asked no mercy be shown her father.

FRAGMENTS OF RUINS
MAKE CHURCH WINDOW
Toronto, May 24.—A stained glass window in St. Paul's Church, unveiled by the Governor, played the role of a memorial to the men and women of the parish who served in the world war, is regarded as unique in ecclesiastical art. It is composed of pieces of glass collected from the ruins of churches and other public buildings destroyed or damaged during the war in Belgium, France and Italy. There are 700 fragments, one for each parishioner who served his country.

Moseley's on the Charles
The dancing season is now in full swing at Moseley's on the Charles, where Sheridan's Orchestra, one of the most popular dance bands in this section of the country, plays the latest and most enticing numbers. The dance floor is one of the largest and smoothest in New England, and the character of the patronage is of the best. Just at present Moseley's is holding dances on Wednesday, Thursday and Saturday evenings.

Lighting homes is our business. Over 30 years' experience has taught us just how to do it. So simply turn your lighting problem over to us.

POLISH ENVOY PELTED WITH ROTTEN EGGS
Vienna, May 24.—The Polish Foreign Minister Constantine Skiatkowski was pelted with rotten eggs here as he was going into a dinner he had arranged for the representatives of the foreign press. His face was bruised and his clothes ruffled. Three of the miscreants, former Ukrainian officers, were arrested. They gave as their reason that they wished to avenge the Ukraine for "Polish oppression."

10,000 DELEGATES AT EUCHARISTIC CONGRESS
Rome, May 24 (By the Associated Press).—Ten thousand delegates from all parts of the world gathered in the outdoor court of St. Peter's at the Vatican today for the opening of the twenty-sixth international Eucharistic Congress. The program of the conference, which will continue until Monday, provides for another Eucharistic Congress, from the outside of St. Peter's, a Pontifical procession, from St. John Lateran to St. Peter's, traversing the heart of Rome, and a solemn communion service in the colonnade.

RIVAL CATHOLIC COLLEGES IN DUAL TRACK MEET TODAY

B. C. PICKED TO WIN OVER HOLY CROSS

There is a little more reason for the dual meet between the Boston College and Holy Cross teams today than the fact that the two schools are rivals. It is an entirely different kind of rivalry, one that is based on the fact that the two schools are the only Catholic colleges in the state to have a dual meet today.

FIRST MID-WEEK RACES AT REVERE CYCLE TRACK

The first mid-week race of the season will be held at the Revere Cycle Track today. The race will be a 200-yard sprint, and the winner will be the one who can run the fastest. The race will be held at the Revere Cycle Track, which is located at the corner of Revere and Boston streets.

THREE MIDDLESEX OUTFITS IN ACTION

Three different Middlesex outfits will be in action today. The first is the Boston team, which is led by the captain. The second is the Holy Cross team, which is led by the captain. The third is the team from the Revere Cycle Track, which is led by the captain.

JAMAICA PLAIN TO HAVE TWILIGHT LEAGUE

There is a little more reason for the dual meet between the Boston College and Holy Cross teams today than the fact that the two schools are rivals. It is an entirely different kind of rivalry, one that is based on the fact that the two schools are the only Catholic colleges in the state to have a dual meet today.

Amateur Baseball Stars Asked to Send in Pictures

There's a little more reason for the dual meet between the Boston College and Holy Cross teams today than the fact that the two schools are rivals. It is an entirely different kind of rivalry, one that is based on the fact that the two schools are the only Catholic colleges in the state to have a dual meet today.

ZBYSZKO HERE SCRAPPY DAN A BIG GUN IN TWILIGHT

There's a little more reason for the dual meet between the Boston College and Holy Cross teams today than the fact that the two schools are rivals. It is an entirely different kind of rivalry, one that is based on the fact that the two schools are the only Catholic colleges in the state to have a dual meet today.

On the Gentlemanly Art of Smoking

Men there are who smoke for pleasure—but most men merely smoke. For the latter are made cigarettes without number—their name is legion. For the former are made cigarettes without peer—their name is English Ovals. Philip Morris selects the choicest tobaccos, matures them to a turn and blends them to a nicety in the good old English way. —Result?

In-COM-pa-ra-bly fine!

ENGLISH OVALS CIGARETTES 20 For 25¢

Blended in the Good Old English Way

VAN HEUSEN

the World's Smartest COLLAR

THE VAN HEUSEN Collar is as stylish as it is soft; and as comfortable as it is correct. Ordinary collars depend upon stiffness for their style, and upon crispness for their comfort. The VAN HEUSEN Collar tempers its style to the shorn neck. Ordinary collars have as little consideration for a neck's curves as a round hole has for a square peg. Well dressed men take off their hats to the VAN HEUSEN Collar, wearing a leading haberdasher. But it's even more significant that they have their necks to it. Price fifty cents. As easy to launder as a handkerchief. Will outwear half a dozen ordinary collars. PHILLIPS-JONES CORPORATION, 77 SUMMER ST., BOSTON

VAN CRAFT The new shirt with the VAN HEUSEN Collar attached

YOU who wear the VAN HEUSEN can now get this famous collar attached to a shirt that is as superior among ordinary shirts as the VAN HEUSEN is among ordinary collars.

Price \$3.00—\$4.00

Men

Manhattan Shirts

They are here again at prices that you can afford to pay. (War costs made it necessary for some to buy poorer quality.) Fit and design approached by few makers. (Holt's Home-Water Room—First Floor)

The Worrier Worried

Let us Americanize our immigrants for the future safety and prosperity of Boston.—John F. Dowd, Americanization Committee.

Defect In 5-Cent Fare Bill

Fails to Provide for Public Ownership as Well as Public Operation of Boston Elevated

There is one defect in the Mayor's bill to submit to the people of Boston a scheme for a five-cent fare. It fails to provide for the public ownership as well as the public operation of the Boston Elevated Railway. And on account of this failure there seems to be some ground for the opinion that the consent of the stockholders of the Boston Elevated Railway must be obtained before the defect which would follow a five-cent fare can be made up out of general taxation. Consequently, Section 6 of the Mayor's bill has to provide that the stockholders' consent shall be solicited, even after the voters of the metropolitan district have decided in favor of the five-cent fare.

If we had public ownership of the Boston Elevated, we could save several million dollars a year merely with respect to taxes and in the difference between the public credit and the company credit, and we would also avoid the necessity of asking the stockholders for their consent to a five-cent fare.

We would thus annul the divorce between the title and the possession of the property, which has been so puzzling and misleading to the public and which seems to make it necessary to ask the stockholders as private individuals to consent to a reduction in fares.

De Valera and Collins

Irish People Too Intelligent and Leaders Too Patriotic to Indulge in Fratricidal Strife

All friends of liberty everywhere and men with Irish blood in their veins must hail with delight the "rapprochement" between President De Valera and Michael Collins, which means the end of any threat of civil war and peace and contentment in Ireland.

The Boston American has over and over again asserted its conviction that in spite of appearances and in spite of the ghoulish delight of Ireland's enemies, the Irish people are too intelligent, that the Irish leaders were too able and too patriotic ever to indulge in a fratricidal war under any circumstances.

Now the people of Ireland have disappointed their enemies and ill-wishers the world over by an accord which promises harmony and national unity and happiness. There never was any truth in the belief so astoundingly propagated by Great Britain that the Irish people could not govern themselves. The same story is told about the people of Ireland's capacity to hold the people's capacity of India, and with the same purpose.

Long live De Valera and Collins and their associates so long as they are the champions of liberty among men!

Five-Cent Fare In Reach

Lieutenant-Governor Fuller Prompt to Render Public Service by Appearing at Boston American Meeting on Common

Lieutenant-Governor Fuller as usual was prompt to see an opportunity to render a public service by appearing at the Boston American's mass meeting on the Common in favor of legislation which would bring about a five-cent fare.

Lieutenant-Governor Fuller is an able and successful business man and he understands that low car fares in a great city are a very important advantage to the development of the city. Although there is no city in the country, except the two cities where the public owns and operates the street railway, which has a five-cent fare and a solvent street railway, yet it is quite possible for Boston to get a five-cent fare if the people think it is important enough to make the effort to get it.

We appreciate the presence of Lieutenant-Governor Fuller at our mass meeting in favor of the five-cent fare. He is still an independent man in thought and action.

Always Room at the Top

Welcome the Immigrant Who Comes Prepared to Work

America, the land of opportunity! Once this was our proudest boast. Why not again? Nothing already a shortage of unskilled labor, which will become acute when our industry fully revives, Judge Gary says.

Every impediment should be placed before the immigrant who cannot make a contribution toward the growth of the nation.

But men and women who qualify mentally, morally and physically for entry into this country should not be debared.

These people have something definite to offer the country—their strength and their allegiance. The country has something definite to offer them—economic freedom and citizenship.

Each needs the other for mutual benefit. Whatever self-interest counts Judge Gary's view, the foregoing is true.

Few aliens, however humble their start, stay long on the ladder's bottom rung. If not they, their children rise from the unskilled to the skilled and make their way among our best.

Mohammed's Men

Still Hard Fighters

Copyright, 1922, Hearst Company

The real trouble in India comes from the sixty million Mohammedans of fighting character. Two hundred and forty million Hindus are a little.

The next big problem of the world may be a general movement among Mohammedans to regain all or part of their ancient power—in times when they were the world's greatest power.

Under Kemal Pasha they are beating the Greeks in Asia Minor. In Egypt they compelled the British to give self-government to the Egyptians.

In Palestine there is a dangerous agitation by the Mohammedan Arabs, outnumbering the Jews ten to one.

They haven't much in the way of modern money, war knowledge or war weapons. But they have an intensity of religious hatred and religious belief that may make them dangerous again, as it has made them dangerous before.

An Echo That's Easily Heard

If This Is Your Birthday You Are LUCKY

THESE are the people who must be known to others, it never to themselves. If today is your birthday take to heart the old French proverb, "know thyself and thou wilt know others." You are destined to be in the public eye, be it only of your little group of personal friends or a whole nation—You may rest assured that your life will be surely intertwined with the lives of others. A child born today will be generous and affectionate, but rather proud and in need of occasionally severe discipline. Famous persons born this day:

Queen Victoria.
Stephen Girard—Banker, Philanthropist; Founder of Girard College.
Richard Mansfield—English actor in America.
George Gray Barnard—Sculptor.

Once-Overs

Copyright, 1922, by International Feature Service, Inc.

ARE YOU STILL IN THE KINDERGARTEN CLASS? You wonder why you can't easily remember a story, but find it so hard to remember something which would be of real benefit.

The story with the funny point is more interesting to you than matters of greater value. To make lasting impression you must create interest.

If the real things of life were as interesting to you, you would remember them just as well. To make lasting impression you must create interest.

Have you not found this out in dealing with children? Lots of grown-ups never get behind this childish condition, especially those who have not had the advantage of the right kind of mind training in school.

It is possible to be an educated fool, but a fool never becomes cultured.

You may have all sorts of facts pumped into you by your teachers, but you are not taught the necessity of an open mind for your daily problems.

Three persons who cannot get interested in anything which is not in story form.

Get out of the kindergarten class.

THE SPIRIT OF YOUTH AND MONKEY GLANDS

By Dr. Charles Fleischer

WHEN the dream comes to town, of course, Father must take his little boy to the show.

Of course, he must! Or else he, Father, that's, would not be happy.

Periodically, he longs for the smell of the sweat and the peanuts and the animals—a malodorous compound as fragrant as rose leaves to his renaiscentist nostrils.

He needs to laugh at the antics of the clown, and to thrill at the supermaricastic stunts and the revel in the gaily caparisoned elephants and the caped ferocity of the less lovable beasts.

He has to stare and join at the freaks of the side-show, and in volucious the secrets of the tricks of the various fakery.

Boy in Himself
The everlasting "kid" in him craves these youthful satisfactions and so he must take the boy—that being really himself—to the circus.

Indeed, no healthy-minded man will hesitate to adopt one, two or three other "kids" for the occasion. Even bachelorhood is no preventive of such fairly performance.

Perhaps you have noted the seemingly patronizing manner of some folks with babies and older youngsters. They think that they are trying to amuse these children, but really they are entertaining themselves and enjoying the prolongation or re-awakening of their own childhood.

One can reduce the number of grown-ups to grimacing, creeping, nonsense-making, gibberish-talking, choroidal dots. All to entertain the child, of course! And the child, who is the child, simply grown self-conscious.

Yes, are fortunate indeed, if the child within you never dies, but you remain always a youth.

Do not look backward and seek to recall the good old times. Wisely enjoy and play your part in the living present, and you will find that there are the best times that ever were.

When you are young you will have glimpses of to-morrow better still, better to clear the vision of the spirit of eternal youth.

Copyright, 1922, by Kine Features Studio, Inc.

Minister who just performed a marriage service at Minnells says they are no more dangerous than those performed on the ground and, probably they are not at all.

A neat and handy new com-

ful spirit of over-seeing growth, gathering experience and gaining wisdom with the years. But always within you the Heart of the Child and animating you the Spirit of Youth.

That is a mastering of the sciences of life and a triumph which the artificers of outer adornment and the injections of monkey gland serum can not compare for effectiveness.

It is pathetic, and in a degree, justified—this effort of the human race to retain or to recapture its youth, or to prolong its adolescentism of mere existence.

Let us all, all over the world, to outlaw war.

JOHN W. HAHN.
No. 5 Park Square, Boston.

Dew and the Hay
Editor Boston American:
While attending a what party and dance I chanced to see your paper, asking for the idea of the daylight-saving law. I talked with practically everyone there, and they all said the same as I, the sooner it was repealed the better. The farmers said it was a good deal harder for them, as the dew does not leave the hay early enough to spread it now.

G. H. WOODBURY.
Spencer, Mass.

Called a Hardship
Editor Boston American:
Daylight saving may be all right for some people, but as far as I am concerned it is a great hardship. I have a sister, the mother of nine children. She must set up every morning at 4 o'clock to get breakfast for her husband and nine children ready for school, and so on as if they hardly get there when they are back again for school. I think it is very hard, and when they are ready to go to work as they were. H. TAYLOR.
Haverhill.

Benefits Rich
Editor Boston American:
I am opposed to the daylight saving law and always have been. I consider it one of the greatest misadventures ever imposed on the people by a legislative body. The only ones benefited by it.

MRS. R. V. D.
Worcester.

Likes to Play Ball

I think daylight saving is the best thing that ever came out. I work six days a week, and I like to play ball after work.

LAWRENCE READER.

Some of them are so skeptical that they even phone before they go home.

A woman used to believe in devotion. Now she believes in diversion.

A man looking for a wife now looks for a wife seeking his first love. He asks if the job is steady.

Every man knows where he stands, but very few of them know where they're going to at dawn.

Since prohibition the only thing that serves a man is a summer.

When a guy leaves home he doesn't know whether he'll see his wife that night in the parlor or the next morning in the court room.

One man was a communist and became home an hour late once, but with wife's care. She was thankful he didn't come home an hour earlier.

A husband is like a millionaire's money. Come easy, go easy.

Times are forcing ahead so fast that pretty soon a woman will be able to announce her engagement, marriage and divorce on the same day.

Adult residents of Boston in the twenty-six wards, listed by the police in 1921, numbered 235,758 men and 245,025 women.

SEEN AND HEARD

By Lambert and Dally

COUNCILLOR HENRY B. HAYES says that one way to cut down the expenses of running the hospitals throughout the city would be to provide more breathing spaces for the citizens. He apparently believes in the old adage that "an ounce of prevention is worth a pound of cure."

In order that there may be much light on the subject in the "thruway" at City Hall, "Hillzone" has had installed a new hanging light fixture. To those who remember the old chandelier in the center of the room one will see in its place a large dome and around it several smaller ones.

The State of New York also estimates that the city of New York has a population of 4,000,000. It is a good thing that the city of New York has a population of 4,000,000.

Introducing CHARLES J. FOX, budget commissioner of the city. Tall, good looking, young and able. Received the second largest floral tribute accorded to an official of the city. Fox will attempt to play the lead in the same old play, "How to Make

Department Heads Happy by the Next Four Years." The city's leading man takes the place of RUFUS S. CARVER, now city auditor.

DR. FRANCIS X. MAHOEY, health commissioner of the city, is attending the annual convention of the American Medical Association and Public Health Association at St. Louis, Mo. Dr. Mahoev is chairman of the committee on reorganization of the latter association.

PATRICK KELLEY, the new superintendent of janitors in the City Hall Annex, is setting the new of the "boys." For example, "Patrick" starts the elevator before 8:30 in the morning. It's a great help to the "fellows" who have apartments on the upper floors.

At the risk of getting too much Draperism into this column, it can be told that REPRESENTATIVE ELLIS S. DRAPER, six foot six, looked into "half a hundred mansions in the State to get a design for a bathtub into which he could comfortably put his long body. He finally found the design at the Prick estate, Beverly Farms.

GARRET P. SERVISS ON EARTH'S ROTUNDITY

By Garrett P. Serviss

"I've been interested in the ancient Greeks and wondering that they found out the rotundity of the earth, and measured it with a line and a telescope. Could you tell me how they did it?"

THEY did it by being much more intelligent with regard to such problems than we rather conceited moderns have generally credited them with. They were ready to admit that the old Greeks were our superiors in matters of art and taste, about which we don't care very much, but we are apt to fancy that practical science was invented in our time.

It doesn't require a very profound reading of ancient history to show that the ancient Greeks were not so much more intelligent than we are. In many cases, made long strides in developing the sciences.

As far as evidence goes back, it would appear that the "Chaldeans" divided the circle into 360 degrees. Then came the division of each degree into 60 minutes, and each minute into 60 seconds, and there was the basis for all kinds of geometrical measurement.

They Had Instruments
Long before the Christians era instruments were made for the measurement of angles on the principle of the subdivision of the circle. Thus the ancient Greeks had a method of measuring the angles of the earth. The instruments were crude, but they were made to enable them to measure the circumference of the earth.

Eratostratus was a Greek mathematician living in Egypt. He wrote a book on geography, and he made a measurement of the shape of the earth. He found that the earth was round, and he measured the circumference of the earth.

More than 1,700 years before Columbus, he affirmed that the earth was round. He was the first to make a measurement of the shape of the earth. He found that the earth was round, and he measured the circumference of the earth.

The simple conception of the roundness of the earth, together with the principles of circular measurement, was enough to give him the idea of the globe. In his day navigation was yet in its infancy. The world had not yet been discovered, and Columbus' idea originated in the head of Eratostratus.
